* 2010 Traffic Volume information generated from counts collected during a "typical workday", which is defined as a Tuesday, Wednesday, or Thursday during a week with no holidays and when schools are in session.

** 2020 and 2035 Traffic Volume Forecasts generated from the BCAG Regional Transportation Demand Model and is representative of the best available planning assumptions as of June 30th, 2012.

Note: The 2020 and 2035 Traffic Volume Forecasts developed from the BCAG Regional Transportation Model are used to assist in the analysis of the Regional Transportation Plan and the associated Air Quality Determination and is not intended to be used to plan local roadway improvements or to provide the level of detail necessary to analyze impacts of development projects. The forecasted traffic volumes are subject to change with the adoption of new general plans in Chico, Oroville, Biggs, Gridley, Paradise, and Butte County. For more detail regarding the BCAG Regional Model visit the following website <http://www.bcag.org/Planning/Transportation-Forecasting/index.html>
