April 20, 2004

The Honorable Steve Santos, Chairperson
Mechoopda Indian Tribe of the Chico Rancheria
125 Mission Ranch Blvd.
Chico, CA 95926

Subject: 2004 Butte County Regional Transportation Plan Update
2004 Federal Transportation Improvement Program

Honorable Chairperson:

The Butte County Association of Governments (BCAG) is the federally designated Metropolitan Planning Organization (MPO) and the state designated Regional Transportation Planning Agency (RTPA) serving Butte County. BCAG is responsible for developing all state and federal transportation plans and programming documents that are necessary to program transportation funds within the region.

BCAG was formed through a joint powers agreement between the County of Butte and the incorporated Cities of Biggs, Gridley, Oroville, Chico and the Town of Paradise. BCAG is governed by a ten member Board of Directors comprised of the five county Board of Supervisors and one council person from each of the five incorporated cities. I currently serve as the Mayor for the City of Oroville and as Chairman representing BCAG.

BCAG is committed to developing Government-to-Government relationships with the Tribal Governments within the Butte County region. In the past, BCAG extended an invitation to your Tribe to attend our Transportation Advisory Committee (TAC), which typically meets on a monthly basis. The purpose of the TAC is to review and discuss BCAG's transportation planning activities and issues in a multi jurisdictional planning forum. Representatives from Caltrans and the Cities and County participate on the TAC.

BCAG staff is currently developing the long-range "Regional Transportation Plan" for Butte County. This is a federally required long-range transportation-planning document that is updated every three years. The purpose of this document is to identify Butte County's long-term (20-25 years) transportation needs for all travel modes.

In addition, BCAG staff is also developing the short-range "Federal Transportation Improvement Program" for Butte County. This document identifies the programming of

Honorable Steve Santos
April 20, 2004
Page 2

federal transportation dollars over the next three federal fiscal years. Of particular interest right now is the new programming of Transportation Enhancements projects and new Congestion Mitigation and Air Quality projects.

We have attached for your record a public notice that will be placed in the local newspaper informing the public of these documents. We welcome any input you may have. If you prefer, I can arrange for BCAG staff to provide your Tribe with a workshop. All material will be posted on the Internet at BCAG's website at www.bcag.org as it is developed.

If you have any questions please give me a call or you can contact Mr. Jon Clark, Executive Director of BCAG at 879-2468. If you prefer, we can schedule a meeting at your office and at your convenience to discuss these projects. We look forward to working with you.

Sincerely,

Gordon Andoe, Chair
Butte County Association of Governments

Attachment: RTP & FTIP Public Notice

PUBLIC NOTICE

The Butte County Association of Governments (BCAG) is designated by the U.S. Department of Transportation (DOT) and the U.S. Environmental Protection Agency (EPA) as the Metropolitan Planning Organization (MPO) for Butte County and its incorporated cities. As the MPO, BCAG is required to prepare a Federal Transportation Improvement program (FTIP) every two years and a long-range Regional Transportation Plan (RTP) every three years. The purpose of the FTIP is to identify all transportation-related projects that require federal funding or other approval by the Federal Highway Administration (FHWA) or the Federal Transit Administration (FTA). The FTIP also identifies all non-federal, regionally significant projects for information and air quality emissions modeling purposes. The FTIP indicates the area's short-term plan for use of federal dollars and other resources for the maintenance, operation, and improvement of the transportation system and the achievement of federal air quality standards over the next three federal fiscal years. The RTP identifies the long-range transportation plans for specific funding programs through the year 2025.

The purpose of this notice in particular, is to inform the public that **new Transportation Enhancements and Congestion Mitigation and Air Quality funding will be programmed as part of the 2004 FTIP update**. Before the FTIP is prepared, BCAG is soliciting input early in the planning process. The public is encouraged to participate and provide input to both the FTIP and the RTP and learn how these documents relate to each other as well as to learn more about transportation funding in Butte County. Both documents will be available for review on the Internet at www.bcag.org as they are developed and at each of the Butte County public libraries once a draft is complete. Comments and questions can be directed to Mr. Iván García, Programming Manager for the Butte County Association of Governments at 965 Fir Street, Chico CA 95928; by phone at 530-879-2468, or by e-mail at igarcia@bcag.org. The public may also contact the respective public works departments to find out what projects will be nominated for funding and to provide input as well.
